SPECIAL NOTES

1-- Read special instructions on page 6.
2-- Note: Wavy lines (∿) on chart indicate regular backstitch in a different color.
3-- Beads (Regular): **See "How to Add Beads" below. Omit backstitch around beads. When cross stitches are used backstitch as instructed. Regular floss (in parentheses) may be substituted for bead.
4-- DMC Metallic Floss: Use short lengths of metallic floss and stitch with one strand in needle. Make each stitch twice. Regular floss (color in parentheses) may be substitut ed for metallic floss. See illustration on page 6.
5-- We also used DMC Metallic floss, Mill Hill Beads and/or DMC Pearl Cotton on our models. These are OPTIONAL embellishments.

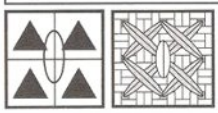
Instructions for Eyes



When instructions read: "Add a little white stitch to eyes with 1 strand where marked 0.", make a short stitch that just covers the intersection.

Note from Pat

Frames for the miniatures are now available in white, pink, yellow, blue, and green.
These colors were chosen to match (as closely as possible) the new DMC Aida fabric in 14 ct. and 18 ct.
(These frame colors are shown on front and back covers ONLY.)
(Gold, off-white, and lavender are also available.)

ALL 170 designs will fit in these frames when stitched on 16 ct. or 18 ct. fabric. All designs not more than 46 x 46 stitches will fit in frame when stitched on 14 ct. fabric.

To make stitching easier and to preserve your book, you may copy these charts for
your personal use only.
Please destroy copies after stitching.
(This protects my copyright)
Because You Count...

Pat

Definition of "Completed stitched piece may not be sold". This statement means that the finished cross stitch piece may not be sold for profit; charity excluded.

The contents of this book have been prepared and presented in good faith, with every effort to be accurate. However, the possibility of human error, printing mistakes or the variation of individuals does exist, and we regret that we cannot be responsible for this.

How To Add Beads:

Add beads to your project after all other stitching and any necessary laundering is done. A #28 Tapestry needle or a beading needle is required for adding small beads. Use the loop method (see below) to anchor one doubled strand of floss on the back of the project. Use the color of floss indicated in parentheses where beads are listed.

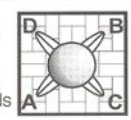


Fig. 1

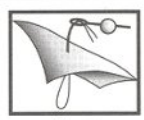

Fig. 2

Fig. 3

Bring the needle up where indicated on the chart by the symbol for beads (A) and pass through the bead (Fig.1). Pass through the fabric (B) and then, if this is the beginning of the new thread, through the loop to anchor the thread (Fig. 2 & 3). Next, bring the needle up as if to cross a stitch (C), pass through the bead again and go down through the fabric (D) and anchor with a small securing stitch on the back.

LOOP METHOD: (To use any time an even number of floss strands is called for --2, 4, or 6). When two strands are required, take one strand 30" long and fold it in half. Thread the needle and pull the loop end lower than the 2 cut ends. Bring the needle up through the fabric until the cut ends appear. As the needle goes back through to make the first half cross, take the needle through the loop and it will **lock**, leaving no **tail** on the back of the fabric.

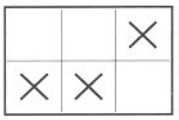
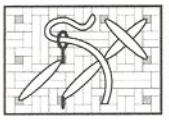
Cross Stitch Instructions

Full Cross Stitch

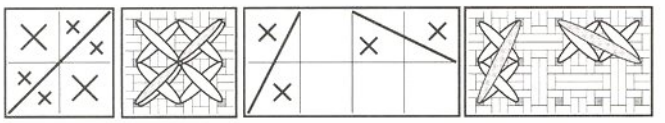




Be sure that all of your stitches lie in the same direction. Bottom stitches should lie from bottom left to upper right and top stitches from bottom right to upper left. Work the stitches from the bottom to the top of the stitch, from left to right, then cross them as you work from right to left, still coming up at the bottom of each stitch and going down at the top.

Symbol with Backstitch

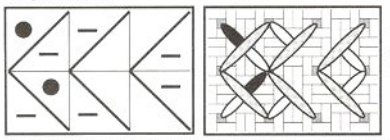
When there is a backstitch over one or two squares and the symbol is the same on either side of the backstitch, make a full cross stitch in that square. Add the backstitch last in the color indicated in the instructions.



1/4 Stitch

1/4 stitches on your chart:

1/4 stitches on fabric:



Helpful Hints:

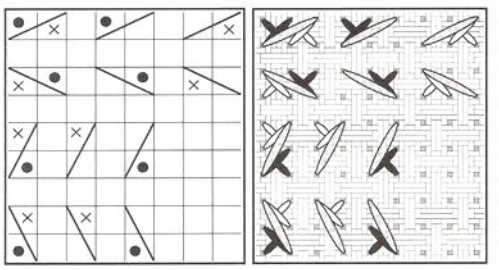
1. Stitch from corner to center using the color indicated by the symbol.
2. Backstitch last in the color indicated in the instructions.

Special Note: If there are NO backstitch instructions given, stitch the backstitch line in the same or most predominant color in that area of the design.

3/4 Stitch

3/4 stitches on your chart:

3/4 stitches on the fabric:



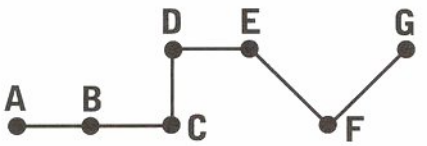
Helpful Hints:

1. If the symbols are different on either side of the backstitch or there is a symbol on just one side of the backstitch, this will indicate that 3/4 stitches should be used in the color indicated by the symbol as shown above.
2. Add the backstitch last in the color indicated in the instructions.

Backstitching Instructions

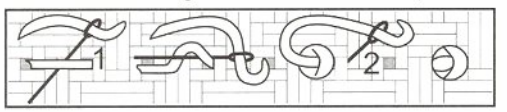
Backstitching (BS) is a part of some designs as outline or as lettering. The purpose of the backstitch is to form a continuous line with each stitch touching. It may travel in any direction.

up at B - down at A
up at C - down at B
up at D - down at C
up at E - down at D
up at F - down at E
up at G - down at F



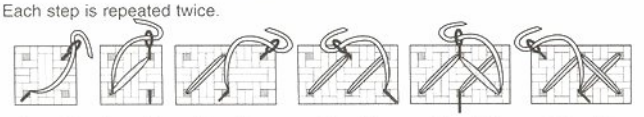
French Knot

Use one strand of floss and bring the needle up where indicated on the chart by a dot where the chart lines intersect. Wrap the needle 1 time with the floss. Hold the floss tightly as you insert the needle back into the fabric 1 thread left or right of the hole. Pull through to form a small knot on top of the fabric.



DMC Metallic Floss Stitches

Each step is repeated twice.



Step #1 Step #2 Step #3 Step #4 Step #5 Step #6

Special Linen Instructions

© Copyright Ginnie Thompson

YOU WILL LOVE WORKING ON LINEN! In the natural progression of cross stitching, you may have begun on an evenweave cotton fabric where one "square" on the cloth was equal to one stitch. A first project may have been a tiny flower or heart. Next, most stitchers experience a period in which sayings are popular, each done with a particular person in mind. Then, we go on to projects both useful and beautiful; pillows, clothing accents, birth and wedding samplers, etc.

Then—LINEN! This is the stuff heirlooms are made of. Linen is durable; it has a strength that will outlast cotton. It allows greater flexibility of design. It launders and becomes more beautiful each time. And it is the best; elegant and traditional.

Tips for Stitching on Linen

RAVELING

Use one strand of a light color to whip the edges of the fabric to prevent raveling.

HOOPLESS STITCHING

Cross stitch on linen does not require an embroidery hoop. Instead, the hand is held in a relaxed position with the thumb and forefinger grasping the cloth and the little finger anchoring it (see fig. 1). On a tiny piece of fabric, it may be necessary to anchor with the ring finger. However, do not sew with the fabric wrapped over one finger—this may distort the stitches.

Fig. 1

KNOTLESS WASTE KNOT

Start with a knotless waste knot. This means to leave the tail of the thread on top of the fabric, up and out of the way (as in fig. 2). When the thread is finished, work it under stitches on the back, either in the direction of the stitches or vertically. Then rethread the original tail and work it under stitches on the back in the same way.

Fig. 2

THE FIRST STITCH

The first stitch and all subsequent regular stitches should begin at a VERTICAL thread. Why? The vertical threads (shown as shaded in fig. 3) act as little goal posts holding up the understitch. At the intersection where the vertical thread lays on top of the horizontal thread, start at the lower left hole. Starting at a vertical thread acts as an early warning system, also. Should a regular stitch suddenly begin at a horizontal thread, it is a sign that threads have been counted incorrectly.

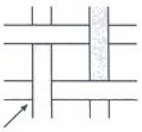


Fig. 3

SEWING MOTION

A sewing stitch, one scooping movement in and out, is used with linen (see fig. 4). Stitches should be neither loose and sloppy nor so tight that the spaces between the linen threads are enlarged. If light can be seen across the top of a row of stitches, the tension is too tight. Correct tension results in flat stitches that do not distort the background weave.

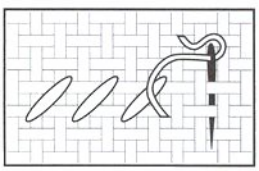

Fig. 4

Do the bottom stitches first, then cross back (see fig. 5). The reverse side will be vertical lines (fig. 6).

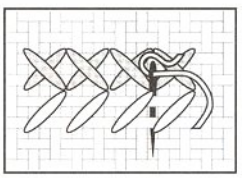

Fig. 5

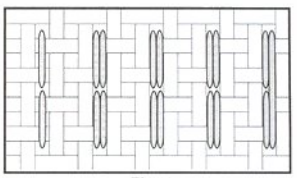

Fig. 6

180 DEGREES

It is very helpful sometimes to turn your work upside down (180 degrees), turning the chart as well, but never turn the work only halfway around (90 degrees). This causes the direction of the top stitch to change, disrupting the texture of the finished piece.

LAUNDERING

Launder your needlework only if it has become soiled. If it is clean, lay it face down on a terry cloth towel on the ironing board and wet it with a sprayer or a damp cloth, then iron dry. This allows the linen to shrink slightly, making the stitches stand up beautifully. If soap is required, hand wash with mild soap in cold water. Rinse thoroughly, handling the fabric gently; roll it in a towel and gently squeeze out excess moisture, then iron dry face down on a terry cloth towel.

MOUNTING

Mount your finished needlework as you would mount cotton fabrics. You'll discover as you explore the world of linen stitching that linen is extremely versatile and can be finished in a variety of ways other than framing.

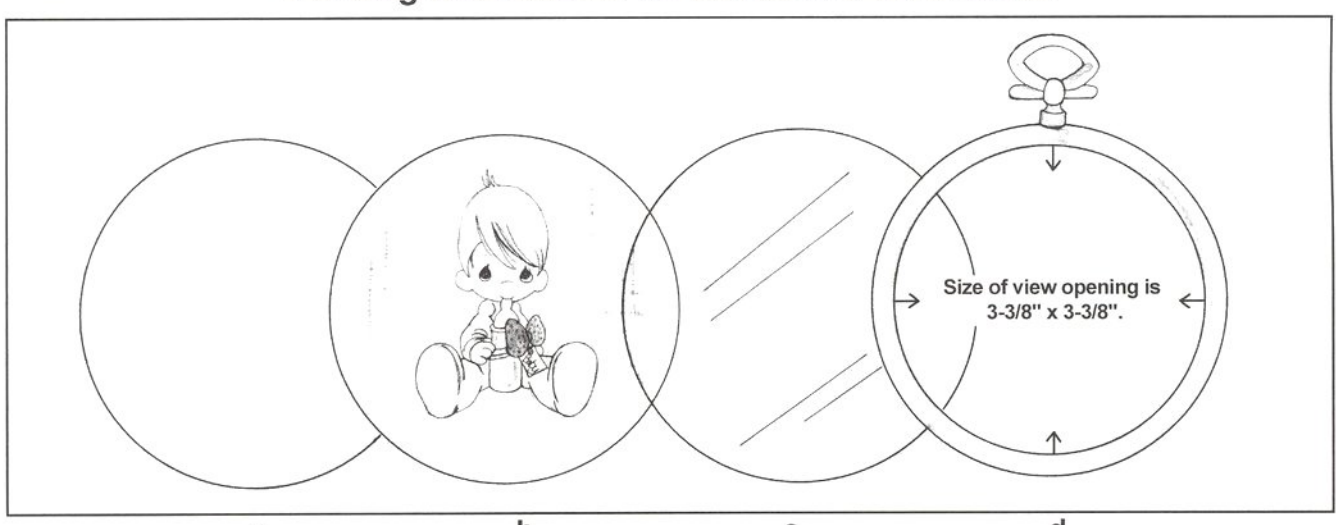
Framing Instructions for Christmas Ornaments



1. CENTER the clear plastic circle over your design. Draw a circle on the cross stitch fabric around the edge of the plastic circle with a pencil. Cut out the circle on the line you have drawn.

2. Assemble in the following order:
   a. cardboard liner
   b. stitched design
   c. plastic lens
   d. frame

Snap into place, NO GLUING NECESSARY!
